Important disclosures

For professional investors only. Not for public distribution.

This presentation has been prepared for informational purposes only and does not constitute an offer or solicitation for the purchase or sale of any security or product nor a testing of interest in any alternative investment fund, security or other product. This presentation is a summary by nature and, unless otherwise noted, is based on matters as they exist as of the date of preparation and not as of any future date. Neither Patria Finance Limited (together with its affiliates, "Patria") assumes any obligation to update any information provided herein and such information will not be updated or otherwise revised to reflect information that subsequently becomes available, or circumstances existing or changes occurring after the date hereof. In certain cases, the information contained herein may have been supplied to Patria by third parties. Neither Patria is responsible for, nor has any duty to confirm or investigate, the accuracy of such information.

The person to whom this presentation is being delivered agrees to (i) keep confidential this presentation, as well as any information derived from this presentation and not disclose this presentation to any other person, (ii) not use this presentation or any information derived from this presentation for purposes of trading any security, including, without limitation, securities of Patria, any funds managed by Patria (each a "Fund") or its portfolio companies and (iv) promptly return this presentation and any copies hereof to Patria upon Patria's request. This presentation contains confidential, proprietary, trade secret and other commercially sensitive information and should be treated in a confidential manner. Patria also notes that trading in securities on the basis of material non-public information is expressly prohibited by federal securities laws.

This presentation does not provide a prediction of future values or results, and no assurance can be given that losses, which may be material, will not be incurred. In considering any performance data contained herein, investors should bear in mind that past or targeted performance of the applicable Fund. Historical and projected returns are not a prediction of future performance, and there can be no assurances that these or comparable returns will be achieved by the applicable Fund or that such Fund will be able to implement its investment strategies or achieve its investment objectives.

This presentation contains information (including economic and market information) that has been or may have been provided by a number of published or unpublished sources. Information provided from outside sources has not been independently verified by Patria or any of its affiliates or advisors, and, in certain cases, factual information from such sources has not been updated through the date hereof.

Nothing contained herein shall constitute any representation or warranty, express or implied, and no responsibility or liability is accepted as to the accuracy or completeness of any information supplied herein. Nothing contained herein should be relied upon as a promise or representation as to past or future performance of any Fund and recipients of this presentation are advised to perform independent verification of the data and conduct their own analysis with appropriate advisors. Any statement of belief contained in this presentation is a belief solely of Patria. Recipients of this presentation shall not treat this presentation as tax, regulatory, accounting, legal, investment or any other advice and this Presentation should not and cannot be relied upon as such.

Gross internal rates of return ("Gross IRRs") and multiples of invested capital ("Gross MOIC") are presented on a "gross" basis (i.e., they do not reflect management fees, "carried interest," taxes, transactions costs and other expenses borne by investors, which reduce returns and, in the aggregate, are expected to be substantial). Any such Gross MOICs used herein represent the total value (realized or unrealized) of an investor's investment as a multiple of invested capital prior to the payment of any expenses. "Net MOIC" represents the total value (realized or unrealized) of an investor's investment net of expenses as a multiple of invested capital. "Gross IRR" and "Net IRR" shall mean an aggregate, annual, compound, gross or net, as applicable, internal rate of return on investments, calculated based on daily investment inflows and outflows reported on an annual basis. Net IRRs are net of all management fees, carried interest, transaction costs and other expenses (other than taxes borne or to be borne by investors) and are generally substantially lower. Net IRRs present the net annual internal rate of return to the investor after the effects of debt financing (at either the Fund or property level) is taken into consideration.

Past or projected performance is not necessarily indicative of future results, and there can be no assurance that the applicable Fund will achieve comparable results to those presented, that such Fund will be able to implement its investment or business strategies or achieve its investment or business objectives or avoid substantial losses or that the return generated by any future investments by such Fund will equal or exceed any past or projected returns (revenues or other metrics) presented.

Certain information contained in this presentation contains "forward-looking statements" and include information relating to future events, future financial performance, strategies, expectations, competitive environment and regulation. "Forward-looking" terminology can be identified by the use of words such as "will," "may," "should," "could," "would," "predicts," "potential," "continue," "expects," "anticipates," "future," "intends," "plans," "believes," "estimates," "projects," "targets," and similar expressions (or the negative thereof) or other variations thereof or comparable terminology, as well as statements in future tense, identify forward-looking statements. All statements other than statements of historical fact are, or may be deemed to be, forward-looking statements.

Although Patria believes that there is a reasonable basis for the information provided herein, it cannot assure you that any forward-looking statements, expectations, beliefs and assumptions will result or be achieved. The expectations and forecasts can be affected by inaccurate assumptions or by known or unknown risks and uncertainties. Should one or more of these uncertainties or risks, among others, materialize, actual results may vary materially from those estimated, anticipated or projected. Patria has no duty to update or amend such forward-looking statements.

To the extent any indices or benchmarks (collectively "Benchmarks") are included in this presentation, such Benchmarks are included for illustrative purposes. Comparisons to other Benchmarks may yield different results. Methodologies employed for calculating returns for any Fund may differ from the methodologies employed in such Benchmark. The volatility and risk profile of the applicable Benchmark is likely to be materially different from that of the applicable Fund. In addition, Benchmarks generally employs different investment guidelines and criteria than the applicable Fund, may or may not employ leverage and may or may not reflects reinvestment of dividends; as a result, the holdings in the applicable Fund and the liquidity of such holdings may differ significantly from the securities that comprise the applicable Benchmark. Benchmarks generally are not subject to fees or expenses of the nature born by the applicable Fund and it is generally not possible to invest in the applicable Benchmark. The performance of the applicable Benchmark has not been selected to represent an appropriate benchmark to compare to the applicable Fund's performance, but rather is disclosed to allow for comparison of such Fund's performance to that of a well-known and widely recognized index. A summary of the investment guidelines for the applicable Benchmark are available upon request. This information is included solely for illustrative purposes. With respect to any transactions described in this presentation that have not closed, such transactions are subject to customary closing conditions. There can be no assurance that these transactions will be consummated, and if consummated, will be consummated on the terms and price described herein.

The advantages of investing in the Mid Market

Access to differentiated managers and opportunities, resulting in better performance and consistency

1 Origination

Origination Through Relationship Driven Access ... Enabled By Our Platform

Sourcing Angle (SOF Deals 2014 – 2023; % of committed capital in US\$)

Key Takeaways

- ▶ Highly selective approach and only focused on transactions where we have a clear angle to win – typically an existing GP relationship
- ▶ Proven ability to access high quality and below the radar opportunities with limited competition
- ▶ Relationship angle facilitates lead or influential role in structuring GP-led deals

2 Asset Selection

Asset Selection Focused on a Balanced Portfolio

Underlying Exposures (SOF III & IV; % of committed capital in US\$)

As at 31 December 2023. (1) Lower Mid-Market: <€1.0bn fund size or EV <€500m for single asset deals; Mid-Market: €1.0bn to €5.0bn fund size or EV €500m to €1.0bn for single asset deals; Large Cap: >€5.0bn fund size and EV >€1.0bn for single asset deals

3 Portfolio Construction

Portfolio Construction Targets a Balanced Profile of Returns

Different deal types provides an attractive blended MOIC with a 20% gross IRR return metric

Composition by Deal Type

Risk-Return Profile by Deal Type (SOF III & IV)

Key Takeaways

- ▶ We construct portfolios that are balanced across deal profiles
- ▶ Highly diversified (FOF) deals show low volatility and underpin portfolio IRRs while securing the downside for fund returns
- ▶ In other deal types, we target high quality and more concentrated portfolios with individual deals sized appropriately
 - ▶ Maximum target single company exposure of 3% of total fund commitments
 - ▶ These deals offer superior absolute capital appreciation potential

As at 31 December 2023. Past performance does not predict future results.

Velocity of cash flows	🟢
Downside protection	🟡

Transaction Overview

- Acquisition of LP interests in six FoFs, all managed by a single GP
- Limited auction process with less than 5 bidders invited, some of whom were unable to move quickly enough to be competitive on pricing given lack of look-through exposure insights

Key Attractions & Sourcing Angle

- High level of coverage and insights:** Existing investors in two of the six FOFs available and strong insights from our Patria GPMS platform holdings in the other funds
- Cash generative portfolio:** attractive balance of cash generation and NAV growth, with a mix of funds in realisation phase and more recent investments. Early distributions resulted in 0.5x DPI within 1.5 years
- High quality underlying GPs:** Many underlying funds trade at close to or at a premium to NAV in the secondary market on a standalone basis
- Favourable competitive positioning:** Attractive entry price unlocked due to ability to address the entire FoF portfolio, leading to a double-digit discount by the time of closing

Transaction Overview

- Diversified portfolio of European and US LP interests, with vast majority managed by high-quality GPs with whom Patria GPMS had existing relationships
- Interesting optionality in one of the key funds with a continuation fund process underway

Key Attractions & Sourcing Angle

- **Highly restrictive GPs:** Existing investors with the GPs positioned Patria GPMS to ultimately win the deal
- **Excellent portfolio insights:** Leveraging both our Europe and US team’s knowledge of the underlying managers, Patria GPMS had excellent access during diligence
- **High quality assets:** The opportunity to gain exposure to high growth assets with significant upside potential, particularly against prudent outturn assumptions used in Patria GPMS base case
- **Motivated seller:** Seller’s preference for full portfolio solution and the team’s ability to address the entire portfolio unlocked the deal

Transaction Overview

- GP-led deal involving the strip sale of interests in a small-cap Spanish growth buyout fund, with a stapled primary commitment to its successor fund
- Key asset was a leading online sports equipment retailer with a highly automated business model, strong growth and margins, and attractive underlying valuation multiple

Key Attractions & Sourcing Angle

- **Unparalleled GP and portfolio access:** having tracked the GP for >5 years, Patria GPMS was granted extensive due diligence access
- **Strong trading and profile of underlying assets:** Very strong growth and cash generation at the underlying portfolio which was unlevered and held at very conservative valuations
- **Attractive concentrated portfolio:** Top 3 assets comprise 90% of portfolio NAV, with largest asset comprising 73% of portfolio NAV
- **Immediate valuation uplift:** Portfolio growth between reference date and closing resulted in immediate valuation of 1.3x MOIC at closing
