José E. Feliciano

Managing Partner and Co-founder of Clearlake Capital

Mr. Feliciano cofounded Clearlake in 2006. In addition to his investing responsibilities, Mr. Feliciano is responsible for the day-to-day management of the firm.

Prior to cofounding Clearlake, he was a partner and member of the investment committee at Tennenbaum Capital Partners, a private investment firm focused on special situations and credit investments. Before joining Tennenbaum, he served as chief financial officer of govWorks, Inc., a payments and other services provider to the public sector, where he managed the finance, corporate development, and human resource functions. Prior to his tenure at govWorks, Inc., Mr. Feliciano worked in investment banking in the mergers & acquisitions and corporate finance groups at Goldman, Sachs & Co, and he also was a private equity investor in the Latin America Enterprise Fund.

Mr. Feliciano currently serves on the board of directors of several Clearlake portfolio companies, including Alkegen, BakeMark, Chelsea Football Club, Crash Champions, Gravity, Intertape Polymer Group, IXS, MRP Solutions, Pretium, PrimeSource, Springs Window Fashion, TERREPOWER, and Wellness Pet. Mr. Feliciano also serves on the board of directors of several nonprofit organizations, including the Robert Toigo Foundation, Cedars-Sinai Medical Center, LA28 Olympic and Paralympic Games, and the Clearlake Impact Initiative, as well as on the board of trustees of Stanford University, the Smithsonian's National Museum of the American Latino, and the J. Paul Getty Trust. Additionally, he cofounded the Kwanza Jones & José E. Feliciano Initiative (Jones+Feliciano), a philanthropic grantmaking and impact investment organization.

Mr. Feliciano graduated, with high honors, from Princeton University, where he received a BS in mechanical & aerospace engineering. He received his MBA from the Stanford Graduate School of Business.

Behdad Eghbali

Managing Partner and Co-founder of Clearlake Capital

Mr. Eghbali cofounded Clearlake in 2006. Prior to cofounding Clearlake, Mr. Eghbali was a private equity investor at TPG, where he focused on buyouts, turnarounds, and other transformational investments in the business services, communications/media, and technology sectors. Mr. Eghbali started his career in investment banking in the mergers & acquisitions group at Jefferies Broadview and in the technology group at Morgan Stanley & Co.

Mr. Eghbali currently serves on the board of directors of several Clearlake portfolio companies, including Bamboo Health, Black Duck, Chelsea Football Club, Confluence, Constant Contact, Cornerstone OnDemand, DigiCert, Diligent, Discovery Education, Dun & Bradstreet, EagleView, FinThrive, InvestCloud, Ivanti, Newfold Digital, Perforce, Quest, symplr, and Victory Live. Mr. Eghbali also serves on the board of directors of several nonprofit organizations, including the Noor Foundation and the Clearlake Impact Initiative, as well as on the board of trustees of the American Enterprise Institute.

Mr. Eghbali graduated with a BS in business administration, with an emphasis on finance, from the Haas School of Business at the University of California, Berkeley.

Notes to Horizon Performance Comparison

The “Russell 3000” is based on the time-weighted Russell 3000 Total Return. The return comparison to the Russell 3000 is hypothetical by nature and is presented for comparison purposes only. Accordingly, investors should be aware of limitations inherent in any comparison with a public equity index.

The Russell 3000 index return has been provided to compare SBCERA’s returns with the performance achieved by public equity investments for the stated periods; however, because SBCERA’s account is actively managed and has been investing over a long period and in various sectors, there is no single index or set of indices that is directly comparable to SBCERA’s portfolio. Investments in private equity do not have the same diversification and liquidity profiles as the indices selected for general comparison purposes herein; however, Pathway believes that the comparisons with public market indices, including on a PME or a time-weighted basis, provide useful information to investors. Accordingly, certain factors exist that may affect the comparability of the Russell 3000 with SBCERA’s returns, including, among others, (i) the index does not charge fees and expenses or require the payment of carried interest, which are charged by the underlying investments in SBCERA’s returns; (ii) the index is not a separately managed investment vehicle and investors may not invest directly in the index; (iii) the market volatility of the index is materially different from that of a private equity portfolio; (iv) the index generally comprises large-cap U.S. equities, whereas a private equity fund portfolio typically comprise privately held companies, including companies domiciled outside the United States; and (v) the Russell 3000 index includes highly tradable common stocks of U.S.-listed companies, which are materially different from the illiquid investments in privately held companies that make up a private equity portfolio. Although the Russell 3000 index returns are used as a general comparison with SBCERA’s returns, the comparison of such returns with any index provides only one approach to the comparison of returns, and investors should consider comparisons with other indices and benchmarks. Investors should, however, be aware of the limitations of such comparisons.

Important Legal Information

Without the prior written consent of Pathway Capital Management, LP (“Pathway” or the “Adviser”), this information may not (i) be used for any purpose other than evaluating your annual private equity commitments or (ii) be modified, sold, or otherwise disclosed in whole or in part to any other person or entity. While the information contained herein has been obtained or derived from sources Pathway believes to be reliable, Pathway accepts no responsibility or liability (including for indirect, consequential, or incidental damages) for any error, omission, or inaccuracy of such information. The projections shown are provided for informational purposes only and should not be construed as investment advice or as providing any assurance or guarantee of the achievement of your targeted private equity exposure or of returns that may be realized in the future from your private equity commitments. Projections and expected returns are subject to high levels of uncertainty regarding future economic and market factors that may affect future performance and certain assumptions contained herein. Accordingly, such projections/expectations should be viewed as only one possible outcome out of a broad range of possible outcomes.

The information provided herein should not form a primary basis for any investment decision made by you or on your behalf, and neither Pathway nor any of its affiliates shall act as a fiduciary or adviser with respect to this matter.

There can be no assurance that the targets stated in this presentation can be achieved. Targets are objectives and should not be construed as providing any assurance or guarantee of the results that may be realized in the future from investments in any asset or asset class described herein.

Each recipient of this document acknowledges and agrees that the contents hereof constitute proprietary and confidential information and a trade secret. Any reproduction or distribution of this presentation, in whole or in part, or the disclosure of its contents, without the prior written consent of Adviser, is prohibited.

Each prospective investor should (i) make its own investigation and evaluation of the Adviser and the Adviser’s specific investment products, including the merits and risks thereof, (ii) inform itself as to the legal requirements applicable to the acquisition, holding, and disposition of an interest in any investment vehicle, and as to the legal and tax consequences of such acquisition, and (iii) have the financial ability and willingness to accept the high risk and lack of liquidity inherent in any such investment.

The statements contained herein that are not historical facts are forward-looking statements within the meaning of the Federal securities laws. The forward-looking statements are based on current expectations, beliefs, assumptions, estimates, and projections about the industry and markets in which the Adviser expects to operate. Words such as “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “estimate,” variations of such words, and similar expressions identify such forward-looking statements. Forward-looking statements contained herein, or other statements made for or on behalf of the Adviser either orally or in writing from time to time, are not guarantees of future performance and involve certain risks, uncertainties, and assumptions that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. These statements include, among other things, statements regarding the Adviser’s intent, belief, or expectations with respect to the type and quality of the investments the Adviser may recommend (the “Investments”); the target returns, IRR, and distributions to investors; performance of any hypothetical portfolios; and the Adviser’s investment strategy generally. All forward-looking statements are made as of the date of this presentation, and the Adviser is under no obligation, and does not intend, to update any forward-looking statements to reflect changes in the underlying assumptions or factors, new information, future events, or other changes.

No representation is being made that the Adviser will or is likely to achieve comparable performance results to that shown herein. Past performance is not necessarily indicative of future results. Although valuations of unrealized investments are made on assumptions that the Adviser believes to be reasonable under the circumstances, the actual realized return on unrealized investments will depend on, among other factors, future operating results, the value of the assets and market conditions at the time of disposition, any related transaction costs, and the timing and manner of sale, all of which may differ significantly from the assumptions on which the valuations used in the data contained herein are based. Accordingly, there can be no assurance that these valuations are accurate, and the actual realized return on these investments may differ materially from the returns indicated herein.

No representation is being made that a prospective investor will or is likely to have access to funds such as the funds referenced herein. The reference to such funds was made with the benefit of hindsight based on historical rates of return of such manager and on specific investments made by such funds. Accordingly, performance results of specified funds inevitably show positive rates of return or investment results.

Investments in private funds and the underlying securities in which they invest are highly speculative, and Pathway may not be successful in meeting its performance objectives. Pathway cannot provide any assurance that it will be able to choose, make, and/or realize investments in any particular investment fund or portfolio of investments. There is no assurance that any investment vehicle or investment-related arrangement advised and/or managed by Pathway will be able to generate returns for its investors or that the returns will be commensurate with the risks of investing in the types of transactions described herein. The expenses of any investment vehicle or investment-related arrangement advised and/or managed by Pathway may exceed its income, and an investor could lose the entire amount of its contributed capital. An investor, therefore, should invest in any such vehicle or arrangement only if the investor can withstand a total loss of its investment.
