Nossaman's 2021 Public Pensions & Investments Fiduciaries' Forum

Registration is now open for Nossaman's 2021 Public Pensions & Investments Fiduciaries' Forum on December 6th and 7th! After reviewing the feedback from the survey that we circulated in August, we understand that many clients prefer not to travel and meet in person due to COVID-19. For this reason, and in consideration of the health and safety of our clients, we have decided to revert to a virtual format for this year's event.

We invite you to attend one or more of the educational sessions that we will host over the two-day period. We have designed the following agenda to cover a variety of critical topics for public pension system trustees, executive staff, investment officers and in-house counsel. Given that this conference will be virtual, we are once again providing the program at no charge and limiting attendance to Nossaman clients.

Please join us for the following thought-provoking sessions:

Monday, December 6 | 3:00 p.m. – 5:00 p.m. PT

Litigation Impacting the Operation of Public Pensions Systems

Ashley Dunning, Peter Mixon, Aalia Taufiq and Alex Westerfield will provide an update on pending public retirement system litigation arising after the California Supreme Court ruling in *Alameda*. They will also discuss how this ruling and other recent and anticipated California court of appeal decisions may impact how trustees and staff administer their retirement systems.

Tuesday, December 7 | 10:00 a.m. – 12:00 p.m. PT

Investment Considerations for Public Plan Investment Officers

Yuliya Oryol, Peter Mixon, Courtney Krause and Andrée Blais will discuss current investment trends and emerging areas of interest for public pension investment officers. This will include an in-depth look at P3 infrastructure investments, co-investments and a discussion of ESG investing and best practices from a legal compliance perspective. The infrastructure investing portion of this discussion will build on points previously discussed during a recent [Public Pensions & Investments Briefings podcast episode](#).

Tuesday, December 7 | 3:00 p.m. – 5:00 p.m. PT

Exhibit A: Page 2

Administrative Issues Facing Fiduciaries

Jim Vorhis, Thomas Dover and John Kennedy will provide an overview of key insurance coverage, data protection and privacy risk and employment issues that public pension system administrators must address to protect their systems. The insurance coverage and data protection portions of this discussion will also build on points previously discussed during recent [Public Pensions & Investments Briefings](#) podcast episodes.

We hope that trustees (less than a quorum), executive staff, investment officers and in-house counsel of retirement system clients will be able to join us.
